Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by either Virving '003 or Gingras '071. Both patents show refiner plates having transition portions of varying width from the inner edge of the plate.

Claims 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Phillips. This patent shows a refiner plate having transition portions of varying width from the inner edge of the plate. Note that the bars are considered to be sides 17 with an associated recess in each bar.

Response to Arguments

Applicant's arguments filed 2/19/08 have been fully considered but they are not persuasive. The examiner does not understand many of applicant's arguments concerning the references used to reject the claims. The figure of Virving '003 clearly shows bars in section b being thicker than those of section c; note the darker color of the bars in section b. Also, a close look at figure 1 of Gingras '071 shows the bars in the inner section being wider than those of the outer section; Note the darker shade of the outer section which reflects the use of thinner bars in this area. Figure 2 of Phillips

also shows inner bars 7 which are wider than outer bars 12. Thus, each of these references meets the claimed subject matter as noted above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
